Greetings Robert,

Thank you for reaching out to StockX, I hope you and your loved ones are doing well. I am following up with you regarding your concerns about the authenticity of your purchases on our marketplace, since our chat interaction was disconnected. I'm sorry about that. I would be happy to continue assisting you!

I understand your concerns regarding the authenticity of your items following the recent claims by Nike. Our team in CS generally does not discuss legal matters. However please allow me to reassure you that each item that passes through our facility receives a thorough inspection prior to being sent to the Buyer. Our skilled authenticators receive consistent training to ensure that the item is authentic and within our condition guidelines as part of the verification process. Our global team of expert authenticators uses a rigorous, multi-step verification procedure that each buyer receives a purchase that is 100% Verified Authentic. In instances where an item may not meet our quality standards, we will link the Buyer with a new, comparable Seller when possible, and issue a full refund when it is not. We are committed to providing a safe, authentic marketplace to trade current culture.

I hope I was able to clear your concerns! please contact us back if you have any additional questions. We are always happy to help. We cherish your choice to be part of the StockX Family!

Wishing you the best,
Dhayannifer.

<div data-wrapper="true" style="font-size:10pt;font-family:Arial,'Segoe UI','Helvetica Neue',sans-serif;"><div>Hey Robert,</div>

<div> </div>

<div>

<div>Before StockX, authentication wasn't widely offered by secondary marketplaces and as a result, consumers didn't have much trust in the resale industry. That lack of trust is what inspired our co-founders to build the platform and establish a job function focused on authentication. Authentication has always been at the core of our experience and has long set the industry standard. </div>

<div> </div>

<div>Please know, each item that passes through our facility receives a thorough inspection prior to being sent to the Buyer. Our skilled authenticators receive consistent training to ensure that the item is authentic and within our condition guidelines as part of the verification process.</div>

<div> </div>

<div>In addition to this, we have a team of subject matter experts with knowledge of specific products that identify and track critical issues and information at the product and brand level. We also have an internal team that is dedicated to managing our proprietary information and ensuring the latest information and industry trends are accounted for in our systems. </div>

<div> </div>

<div>In instances where an item may not meet our quality standards - whether that be for manufacturing defects, deemed as worn or inauthentic, etc. - we will link the Buyer with a new, comparable Seller when possible, and issue a full refund when it is not. <div>We are committed to providing a safe, authentic marketplace to trade current culture.</div>

<div> </div>

<div>We stand firm in our process and the ability of our authentication team members to identify any concerns in the quality of items as they are received. Due to this, we are not currently accepting returns for items that have successfully completed our verification process and are outside of our standard return time frame.</div>

<div> </div>

<div>We value our customers and we are committed to providing a safe, authentic marketplace to trade current culture.</div>

<div> </div>

<div>Best, Justin
